

mCheatDeviceClear

```
graph LR; A[mCheatDeviceClear] --> B[mCheatSetDeinit]; B --> C[free];
```

The diagram illustrates a three-step process flow. It begins with a gray rectangular box containing the text 'mCheatDeviceClear'. A dark blue arrow points from this box to a white rectangular box containing 'mCheatSetDeinit'. A second dark blue arrow points from the 'mCheatSetDeinit' box to a final white rectangular box containing 'free'. All boxes have a black border, and the arrows are solid dark blue lines.

mCheatSetDeinit
